Career Summary

Ken Moody joined NAI Norris, Beggs & Simpson as Information Technology Manager in 2009. He is responsible for all of the company's computer hardware, software, local and wide area network administration operations and maintenance. Ken's professional technical experience dates back to 1997; he has considerable expertise in technical support, network administration, web development and implementation, and virtualized infrastructure.

Prior to joining NBS, Ken was Vice President and Information Systems Manager at the Bank of Clark County. In this position, he developed and implemented a new corporate website, created an IT strategic plan, and implemented the technology, data and telephone systems for the bank's flagship branch, including the bank's first ATM. Ken also spent six years as a Web Specialist at Columbia Credit Union in Vancouver.
